

New dog park

- Larger dog park to replace the existing one which is too small - dogs get into fights.
- Larger dog park allows dog dogs at the same time and more dog owners to socialize.
- Dog park is to be fenced and acces via capkey so it is only for residents in the area.

The urban gardens can be replaced to the other side of the bushes and into the area between the blocks (the green line on the image)

Now, the area is rarely used by anyone, mostly a few people from outside the area who come and smoke and drink. The playground is never used. A dog park could make it a lively space for the residents.

The wide, dense bushes are full of garbage, broken bottles and often used as a toilet. Sometimes people use the place as a toilet and homeless people sleep in there. The bushes should be more sparse, but the trees left so the dogs could run between them (important).
